

## **DME LICENSURE BILL HIGHLIGHTS**

A DME licensure bill helps ensure your business is protected and patients get the equipment they need with minimal requirements. Below are specific key points that will be implemented in the DME licensure bill. With this bill, all DME providers would have to be licensed to provide products and services in your state. Please note that these are just highlights, the bill that you draft in your state may look different.

### **Brick and Mortar Requirements**

A DME licensure bill would require providers to have a brick and mortar location in your state, staff and regular office hours.

### **Accreditation**

DME providers would have to be accredited with this DME licensure bill.

### **Reciprocity**

Reciprocity with surrounding states 50 to 100 miles

### **DME involvement in policy**

A DME licensure bill would allow DME to have a seat on state boards and commissions.
