

DIABETES SUPPLIES

COMPLAINT HOTLINE

800.404.8702

for MEDICARE Beneficiaries

Are you being forced to

- switch provider or pharmacy?
- switch brands?
- pay for supplies out of pocket?

Please call our hotline to voice your concerns today.

You can make a difference!

www.peopleforqualitycare.org

*The most powerful weapon in the fight against the recent changes to **diabetes testing supply access** for Medicare beneficiaries is you.*

The Medicare Complaint Hotline was created so you can share your concerns and complaints with Congress and important Medicare officials. Our Medicare complaint reports will be sent to those officials who have the power to amend the program and return choice and access to better equipment and service to those who need it most.

With your permission, we will share your Medicare complaint with Congress and patch your call to the congressional switchboard where you can tell congressional staff members just how you feel. If you'd rather make a complaint without connecting to the switchboard, we welcome those calls as well.

Thank you for speaking out.
